

JENNIFER A

B.Tech – Information Technology (2024-2028) | Easwari Engineering College, Chennai
✉ jennialbert17@gmail.com | ☎ 8220616065 | 📍 Chennai, Tamil Nadu, India

PROFESSIONAL SUMMARY

Motivated and results-oriented Information Technology undergraduate with hands-on experience in full-stack web development and a demonstrated track record in competitive hackathons. Adept at translating real-world problems into scalable, user-centric technology solutions. Seeking a challenging internship or entry-level role to contribute to high-impact projects while furthering expertise in software engineering and sustainable technology.

EDUCATION

Bachelor of Technology – Information Technology | Easwari Engineering College (Anna University)

- Current CGPA: 8.71 (2026)

Higher Secondary Certificate (HSC)

Daniel Thomas Matriculation Higher Secondary School, Chennai | March 2024

TECHNICAL SKILLS

Languages: Java, Python(Basics)

Web Technologies: HTML, CSS, JavaScript

Tools & Platforms: Git, VS Code

INTERNSHIP EXPERIENCE

Web Development Intern | Placemantra 2024

- Contributed to frontend development of client-facing web applications, applying HTML, CSS, and JavaScript best practices.
- Participated in real-time project implementation cycles, gaining exposure to professional workflows, version control, and agile collaboration.
- Delivered user-friendly UI components aligned with project requirements and feedback from senior developers.

PROJECTS

Smart Internship Matcher | Ongoing Self-Driven Project

- Developing a web platform that intelligently matches students to internship opportunities based on skills, academic background, and eligibility criteria.

- Integrating dynamic filtering and a recommendation engine to improve placement accuracy and reduce manual search effort.

Blood Donor Registry System

- Designed and implemented a digital registry to store donor profiles and facilitate rapid donor identification during medical emergencies.
- Built search and filter functionality enabling healthcare coordinators to locate compatible donors by blood group and location.

MandiMart

- Helps street vendors find raw materials at the best prices without traveling to multiple markets.
- A web-based platform that allows vendors to compare supplier prices, check availability, and place orders easily.
- Reduces procurement costs, saves time, and improves accessibility to affordable raw materials for small businesses.

HACKATHONS & EXTRACURRICULAR ACTIVITIES

Smart India Hackathon (SIH) – Round 2 Qualifier

- Selected among top teams nationwide and advanced to Round 2 of the Smart India Hackathon, one of India's largest student innovation competitions.
- Led development of a healthcare solution for Nabha Healthcare Centre, focusing on scalability and real-world deployment feasibility.

24-Hour Online Hackathon – Street Vendor Supply Chain Solution

- Developed a cost-optimization platform under time constraints to help street vendors source raw materials more efficiently, reducing procurement cost and travel effort.

CORE COMPETENCIES

- | | |
|--------------------------------|------------------------------|
| • Adaptability & Fast Learning | • Team Collaboration |
| • Social Impact Orientation | • Full-Stack Web Development |
